

Testimonial for James Parker
My Lock Locksmiths

This is a testimonial for James Parker of My Lock Locksmiths.

I recently contacted James to check the security of the locks in my house. He checked them all and gave me very fair advice, never pushing me to take the most expensive options, showing what could be done with what was already in place and thereby trying to save me money while ensuring the best-possible security.

Later James came and installed three locks and mended a 4th with tremendous speed, efficiency and clear expertise.

My house is now far more secure and for a very reasonable price.

I am very happy to recommend James Parker of My Lock Locksmiths to any one in need of a professional and trustworthy locksmith.

Thank you, James.
